

## **EqualHouse: From Housing Inequality to Sustainable, Inclusive and Affordable Housing Solutions**

EqualHouse aims to identify, analyse and tackle the most significant dimensions of housing inequality across Europe. Designed with both transdisciplinary and interdisciplinary elements, EqualHouse will provide housing policymakers and other key stakeholders with robust, evidence-based guidance on how to address these inequalities in a sustainable, inclusive and affordable way. The project involves a consortium of 12 project partners from around Europe and is funded by the 2023 EU Horizon programme.

University of Warsaw will provide its expertise on the region of Central and Eastern Europe to the project. The contributions will specifically focus on the topic of macroeconomic determinants of housing inequalities (WP4), interrelated housing and labour inequalities (WP9), energy efficiency and energy poverty in Central Europe (WP4).
